

T8 Raiselift

Industrial Range / Raise and lowering unit

Raise and lowering unit features an electric motor that lowers the luminaire to the floor level and raises it again with a up /down switch or remote controller. Ideal for luminaire where height is an issue for relamping and maintenance.

Specification

- Power cuts off to lift when lowered
- No risk of electric shock
- 20m cable drop

Application

- Showroom
- Factories
- Shopping centres
- Car showrooms
- Warehouse
